Preamble

Where PGME programs require Residents to visit rural communities to provide mandatory Outreach care as part of their training, reimbursement of reasonable expenses will be supported. Commonly, Outreach opportunities are short visits (often no more than 1-4 days) which are dissimilar to regular block rotations.

As trainees of a public institution which aims to use its resources as effectively as possible, residents must exercise care when incurring travel expenses. It is the responsibility of the traveler to make the most economical travel and accommodation arrangements possible.
